Dear Pam

Gas Quality Requirements and Procedures

Mighty River Power welcomes the opportunity to provide these comments on the Gas Industry Company's paper Gas Quality Requirements and Procedures (Procedures) issued in February this year. Mighty River Power is happy for its comments to be publicly released.

Mighty River Power commends the Gas Industry Company for taking ownership of the Procedures. Also as a member of the working group that assisted in the development of the Procedures Mighty River Power would like to take this opportunity to thank the Gas Industry Company for its support of and at the working group the over the last few years.

The Procedures is an excellent document and we support its publication and Gas Industry Company's proposed governance arrangements for the Procedures.

Mighty River Power looks forward to utilising the Procedures as part of our negotiations on gas supply contracts to ensure that we have access to the appropriate information that will assist us in demonstrating our compliance with the likes of the Gas Safety and Measurement Regulations.

If you would like to discuss any of our above comments directly with Mighty River Power, then please do not hesitate to contact me on 06 348 7926 or jim.raybould@mightyriver.co.nz.

Yours sincerely

Jim Raybould
Gas Manager
