Dear Ian

**Re: 14 February 2014 MPOC Change Request**

Thank you for the opportunity to provide feedback on the 14 February MPOC change request.

Nova has reviewed the Maui Development Limited ("MDL") Application for Gas Industry Company's ("GIC") recommendation on proposed amendments to the Maui Pipeline Operating Code ("MPOC") dated 14 February 2014.

Nova sees the majority of the proposed in this document as immaterial and or uncontroversial.

Nova believes that amendments to section 11.10 of the MPOC will require changes to the Balancing Agents Standard Operating Procedures and Balancing Contract Terms and Conditions, however sees no requirement to oppose these changes based on the understanding that MDL is currently consulting with key stakeholders around this issue.

Please feel free to contact me if you wish to discuss our views further.

Yours sincerely

Paul Baker
