Re: Gas Industry Co role in GTAC code changes

Thank you for publishing the note dated May 2019 on the Gas Industry Co's role in GTAC code changes.

The change process and timeframes for the various steps in the process were well discussed in the drafting of the GTAC.

Nova Energy is satisfied with the process as drafted and that the note published by the GIC accurately reflects that.

Yours sincerely

Paul Baker

Commercial & Regulatory Manager, Nova Energy
