POWERCO

Dear Ian

Minor Amendments to the Gas (Downstream Reconciliations) Rules 2008

This is Powerco's submission to the "Statement of Proposal: Minor Amendments to the Gas (Downstream Reconciliations) Rules 2008.

The GIC has suggested a number of minor and non-controversial changes to the Rules and is following the simplified approach for such types of amendments as provided for by the Gas Act 1992.

Powerco welcomes the GIC's work to improve the Rules, and agrees with the GIC's proposals.

Yours sincerely

Paul Paul Goodeve
Regulatory and Business Manager
