Subject: Greymouth Gas feedback on long-term capacity solution

Hi Mel,

Further to Tim's email of last Wednesday, Greymouth Gas has the following feedback on the long-term capacity proposal (Gas Transmission Investment Project_170803.8.pdf):

- 1) Does Greymouth Gas agree that the project should be aimed at establishing the current need for gas transmission investment and developing an effective pathway for gas transmission investment to take place?

Yes

- 2) Does Greymouth Gas consider the project management outline provided in section 7 is suitable or, if not, what alternative would you suggest?

It is suitable

- 3) Would Greymouth Gas be likely to nominate a senior manager to participate in the Panel of Strategic Advisers?

No

Regards
Chris
