Dear John

Proposed Recommendation on the Gas (Processing Facilities Information Disclosure) Rules 2008

Genesis Power Limited, trading as Genesis Energy, welcomes the opportunity to provide a submission to the Gas Industry Company ("the GIC") on the consultation paper "Proposed Recommendation on the Gas (Processing Facilities Information Disclosure) Rules 2008" dated November 2012.

We agree that the market for gas processing facilities appears to be operating efficiently. We support the GIC recommending to the Minister of Energy and Resources that regulated access to processing facilities is not required and that the information disclosures should be allowed to lapse.

If you would like to discuss any of these matters further, please contact me on 04 495 6357.

Yours sincerely
