**Transpower NZ Ltd submission to Gas Industry Company's Consultation
Gas Industry Co FY2021 Work Programme and Levy**

10 February 2020

Question	Transpower response
Q1: Do you have any comments on the process for developing Gas Industry Co's Work Programme and Levy?	No comment.
Q2: Do you consider there to be any other items that should be included in Gas Industry Co's intended Work Programme for FY2021? If so, please describe the work required and how that work achieves the outcomes sought under the Gas Act and GPS.	As we <u>submitted</u> in December 2019, "in our view the development of the disclosure regime for production and storage outages should now be expedited to support confidence in New Zealand's overall energy security." We urge the GIC to publish a timeline to the outages information disclosure regime taking effect. We remain available to provide any assistance GIC may need during the design phase.
Q3: Do you consider there to be any items that should be excluded from Gas Industry Co's intended Work Programme for FY2021? Please provide reasons for your response.	No comment
Q4: Gas Industry Co is particularly interested in industry comment on the forecast gas volumes - do stakeholders consider the projection reasonable? If not, what would they consider an appropriate gas volume estimate to be?	No comment
Q5: Do you have any comment on the proposed levy rates for FY2021?	No

For any questions please contact Micky Cave, Senior Regulatory Analyst, micky.cave@transpower.co.nz
