Dear Ian

**Comments on the GIC's Proposed Updates to the Gas Quality Requirements and Procedures Document**

Thank you for the opportunity to provide comments on the Gas Industry Company's (GIC) proposed updates to the *Gas Quality Requirements and Procedures Document* (the Document), released in June 2019.

Vector provides its comments and suggested changes on the attached Word version of the Document published by the GIC, in addition to the GIC's amendments that are already marked up in the Document.

We highlight our comments and proposed changes (in blue) throughout the Document for easy tracking. Our comments are mainly around ensuring that references to gas quality standards are up to date. Where a reference document is not publicly or readily available, we indicate that the relevant standard or section in the reference document "needs to be checked" by the GIC.

There is nothing confidential in our comments and suggested changes, and we have no issues with the GIC publishing this letter and the attached Document.

Please contact Jim Raybould (Data Services Manager – Gas Trading) if you have any questions or require further information at 06 215 4427 or [Jim.Raybould@vector.co.nz](mailto:Jim.Raybould@vector.co.nz).

Yours sincerely

A handwritten signature in blue ink, appearing to read "Anna Carrick". The signature is fluid and cursive, with a large initial 'A'.

**Anna Carrick**
