

emsTradepoint Ltd submission to Gas Industry Company's Consultation

Gas Industry Co FY2021 Work Programme and Levy - 10 February 2020

Question	emsTradepoint Response
Q1: Do you have any comments on the process for developing Gas Industry Co's Work Programme and Levy?	emsTradepoint (eTp) engaged in the annual Co-Regulatory Forum in 2019 and supports the overall process for developing the work programme.
Q2: Do you consider there to be any other items that should be included in Gas Industry Co's intended Work Programme for FY2021? If so, please describe the work required and how that work achieves the outcomes sought under the Gas Act and GPS.	eTp does not consider any additional items for inclusion in the intended Work Programme. eTp have submitted on all rounds of the Information Disclosure process to date and restate our position on the importance of a process for Information Disclosure to be expedited with urgency given the thorough analysis GIC has already undertaken around the issues.
Q3: Do you consider there to be any items that should be excluded from Gas Industry Co's intended Work Programme for FY2021? Please provide reasons for your response.	eTp believes the intended work programme is thorough and includes the full breadth of the GIC's obligations including BAU, ongoing reporting and new workstreams. eTp supports GIC's prioritisation of ongoing projects and their importance to stakeholders, specifically Information Disclosure.
Q4: Gas Industry Co is particularly interested in industry comment on the forecast gas volumes - do stakeholders consider the projection reasonable? If not, what would they consider an appropriate gas volume estimate to be?	No comment
Q5: Do you have any comment on the proposed levy rates for FY2021?	No
