Dear Steve

## Statement of Proposal on FY2015 Strategy, Work Programme & Levy

---

Genesis Energy Limited welcomes the opportunity to provide a submission to the Gas Industry Company ("the GIC") on the consultation paper "Statement of Proposal on FY2015 Strategy, Work Programme & Levy" dated 11 December 2013.

We appreciate all the hard work that the GIC has carried out over the last year and we are comfortable with the scope of the proposed work programme for the financial year ending June 2015. The "Resources" section of consultation paper, in particular, provides a good picture of the anticipated workload and the level of involvement for each project. Additionally, we would like to acknowledge the GIC's early workshop engagement with stakeholders prior finalising the work programme. This is an effective way of communicating with the industry.

We consider that the GIC's current budgeted and forecasted levy charge for FY 2015 is appropriate. We appreciate the GIC's effort to control its budget to lower than the previous year's forecasted budget by prioritising its work programme.

If you would like to discuss any of these matters further, please contact me on 04 495 6357.

Yours sincerely

Daisy Shen  
Regulatory Advisor
