Explanatory note

This note is not part of the regulations but is intended to indicate their general effect.

These regulations, which come into force on 1 July 2025, impose levies on gas industry participants for the 2025/26 financial year. The levies fund the costs of Gas Industry Company Limited (**GIC**) in performing functions and duties and exercising powers, including the cost of collecting the levies. GIC is the approved industry body under the Gas Act 1992.

The 2025/26 levies are the following:

- a wholesale gas levy of 1.7158 cents for every gigajoule of gas purchased from gas producers, calculated monthly on the basis of the buyer's purchases made in the previous month and payable monthly. The levy is not payable on gas purchased from gas producers that have purchased the gas from other gas producers. This year's wholesale levy rate is an increase from the rate of 1.5952 cents per gigajoule that applied in the 2024/25 financial year:
- a retail gas levy of 40.83 cents per month (which is the annual levy rate of \$4.90 divided by 12) for each installation control point for which the retailer has a contract to supply gas (as recorded in the registry under the Gas (Switching Arrangements) Rules 2008) as at the last day of the previous month. This year's retail levy rate is a decrease from the rate of 54.42 cents per month that applied in the 2024/25 financial year.

The levies are exclusive of goods and services tax.

The regulations require various industry participants to supply specified information to GIC each month.

The regulations also require industry participants to keep, until 30 June 2027, all of the information that is necessary for the purpose of establishing the correct amount of

the wholesale levy payable, and to supply that information to GIC on request. This obligation extends to industry participants that are not liable to pay a levy.

Issued under the authority of the Legislation Act 2019.
