News Bulletin 17 November 2025

Kia ora

Welcome to the latest News Bulletin.

In this bulletin:

1. [David Prentice joins Gas Industry Co](#)
2. [Co-regulatory Forum – Thursday 27 November](#)
3. [2025 Supply and Demand study](#)

David Prentice joins Gas Industry Co

Earlier this month, we welcomed David Prentice as Chief Executive of Gas Industry Co.

David's extensive experience in the energy sector includes his most recent role as Chief Executive of NZ Windfarms, and prior roles as Chief Executive of Manawa Energy, Chief Executive and Director of Trustpower, and Chief Executive of Opus International Consultants. David was also the Chair of the Interim Committee for Climate Change and is currently on the Board of Northpower and Martin Jenkins.

David is looking forward to engaging with the sector and supporting the company and the industry as we move through the energy transition.

Co-regulatory Forum – Thursday 27 November

Our annual co-regulatory forum will be held online on Thursday 27 November, 10.00am – 12.00pm.

This year, we will discuss the FY2027 Work Programme and associated Levy, which will inform our Statement of Intent for 2027-2029.

Our co-regulatory model relies on the input of industry to develop our Work Programme. Early conversations about priorities are invaluable, and attending the co-regulatory forum is your chance to contribute to this process.

The feedback we receive at the forum will inform the detailed proposals released for industry consultation in mid-December, providing an opportunity for written submissions.

Registration for the forum is essential.

To register, email info@gasindustry.co.nz with 'RSVP co-reg forum' as the subject.

You will then receive a registration pack and a link to the event taking place online on Thursday 27 November.

We look forward to seeing you there.

2025 Supply and Demand study

PwC have been engaged to complete this year's Gas Supply and Demand study.

Our regular Supply and Demand studies provide insights for industry and policymakers about the potential outcomes from decisions about possible pathways for the sector.

We plan to release the study in December.
