Gas Industry Co.

News Bulletin 6 November 2026

Kia ora

Welcome to the latest Gas Industry Co News Bulletin.

In this bulletin:

- Go-regulatory Forum
- Gas Information Exchange Protocols
- September 2026 Quarterly Report
- Consultation Calendar

Co-regulatory Forum

Our annual co-regulatory forum will be held online on Tuesday 1 December, 10.00am – 12.00pm.

This year, we will discuss the FY2028 Work Programme and associated Levy, which will inform our Statement of Intent for 2028-2030.

Our co-regulatory model relies on the input of industry to develop our Work Programme. Early conversations about priorities are invaluable, and attending the co-regulatory forum is your chance to contribute to this process.

The feedback we receive at the forum will inform the detailed proposals released for industry consultation in mid-December, providing an opportunity for written submissions.

Registration for the forum is essential.

To register, email info@gasindustry.co.nz with 'RSVP co-reg forum' as the subject.

You will then receive a link to the event taking place online. We look forward to seeing you there.

Gas Information Exchange Protocols

New and updated protocols

Gas Information Exchange Protocols (GIEPs) set out standard formats for exchanging information between gas industry participants. They help ensure information is shared consistently and efficiently across the gas market. GIEPs are not regulated.

Four GIEPs were first developed in 2010. In 2026, we consulted with industry on improvements to the existing protocols and the development of new protocols. These changes were driven by:

1. the rollout of advanced gas meters
2. updates to the Gas Consumer Care Guidelines
3. the need to better align with Use of System Agreements between distributors and retailers

As a result of this work, new and updated protocols have been published on our website. Effective dates have been included where appropriate, based on industry feedback.

How the protocols are used, and how often they are used, varies between participants. Protocols that are not formally adopted will continue to be published as guidance for industry participants operating outside formal exchange platforms.

September 2026 Quarterly Report

Our Quarterly Report – September 2026 is now available on our website.

Our Quarterly Report provides the Minister for Energy with an update on the gas sector and progress made towards meeting the Government's objectives and outcomes for the gas industry.

You can find the quarterly report on our website.

Consultation Calendar

The Consultation Calendar provides information on the planned industry consultations required to deliver our work programme.

We have updated the calendar for the next quarter on our website.
