

Welcome to Gas Industry Co's *News Bulletin*, a periodic advisory of new and current consultations, workstream developments, publications and presentations.

In this issue:

- GTAC Workshops held on 24 and 25 August.

Gas Transmission Access Code (GTAC) Workshops

First Gas has received notice of parties' priority issues for the GTAC workshop that will be held at the GIC on 24-25 August. The following agenda synthesizes the priority areas for discussion. The first two agenda items will be led by First Gas, since these items respond to requests for further information. Parties that have highlighted the remaining issues as priorities will be asked to speak to those agenda items.

1. Process for finalising the GTAC
2. Pricing
3. Priority rights, congestion management and curtailment
4. Daily overrun and underrun charges
5. Hourly overrun charges
6. TSO discretion in the GTAC
7. Code change process

First Gas recognises that parties may wish to raise other issues or suggestions that are not able to be covered at the workshop. Many of these are being raised on the Trello website, and First Gas welcomes ongoing feedback on all of the matters covered by the GTAC.

The Agenda referred to above is available [here](#).

Please note the Teleconference details have changed and are available below.
