

Welcome to Gas Industry Co's *News Bulletin*, a periodic advisory of new and current consultations, workstream developments, publications and presentations.

## In this issue:

- Gas Transmission Access Code – Emerging Views on Detailed Design Workshop

## GTAC Workshop

Submissions on the First Gas paper: *Gas Transmission Access Code Development – Emerging Views on Detailed Design of Access Products, Pricing, Balancing and Allocation (EV Paper)* will be discussed at a workshop where Gas Industry Co will present its analysis of submissions on the paper. The workshop is being held on Wednesday 19 July 2017.

In addition, First Gas will lead a discussion on its proposed approach to stakeholder engagement on the draft GTAC in light of the submissions received on the *EV Paper* and preliminary draft code changes for the code transition process. Gas Industry Co will then discuss possible changes to the Gas (Downstream Reconciliation) Rules 2008, and the Gas Governance (Critical Contingency Management) Regulations 2008.

A follow up News Bulletin will notify stakeholders when the material for the workshop, in particular Gas Industry Co's *Analysis of Submissions* on the *EV Paper*, is available.

If you wish to attend the workshop or participate by teleconference, please RSVP accordingly as detailed below.
