

Kia Ora, and welcome to the Gas Industry Company's *News Bulletin* - a periodic advisory of new and current consultations, workstream developments, publications and presentations.

In this issue we cover:

- Upstream outage information disclosure code.
- Invitation to attend Gas Industry Co's 2019 annual Co-regulatory Forum

## Upstream outage information disclosure code.

Upstream gas producers, gas storage owners and the Petroleum Exploration and Production Association of New Zealand have proposed a new information disclosure regime in respect of planned and unplanned outages.

Copies of the draft Upstream Gas Outage Information Disclosure Code, an overview document and a covering letter can be found [here](#).

Feedback on the draft Code is invited by **5.00pm, Monday 4 November 2019**. Please send any feedback to [joshua@pepanz.com](mailto:joshua@pepanz.com).

## Invitation to attend Gas Industry Co's 2019 annual Co-regulatory Forum.

Gas Industry Co invites industry stakeholders to attend the Company's annual Co-Regulatory Forum, on **Friday, 29 November 2019**.

At this time each year, we commence development of our Statement of Intent, in this case covering the financial years 2021-2023. This includes establishing:

- a Work Programme for FY2021, with indicative activity for the subsequent two years.
- Work Programme costs for FY2021, which are principally funded through market fees under gas governance rules and regulations and through annual Levy Regulations.

Our co-regulatory model relies on industry input in developing the *Statement of Intent*. In past years, we have found early engagement with stakeholders on strategic and work priorities to be invaluable, and we again seek your input into the forthcoming planning round. This commences with the Co-regulatory Forum, following which we will publish a formal Statement of Proposal with opportunity for stakeholders to make written submissions.
