

NEWSbulletin

14 August 2020

Kia ora, and welcome to the Gas Industry Company's *News Bulletin* - a periodic advisory of new and current consultations, workstream developments, publications and presentations.

In this issue we cover:

- Submissions on the Statement of Proposal for amending the Critical Contingency Management Regulations

Submissions on the Statement of Proposal for amending the Critical Contingency Management Regulations

In May 2020 we released the consultation document Statement of Proposal for amending the Critical Contingency Management Regulations. On the 24th of July 2020, at the end of our consultation period, we received eleven submissions. These submissions are now available [here](#).

A statement of proposal is the first step in amending the CCM Regulations. We are currently preparing a summary of submissions which will determine whether we have enough information to proceed to the next step of preparing a recommendation to the Minister.
