# 1. Terms of reference

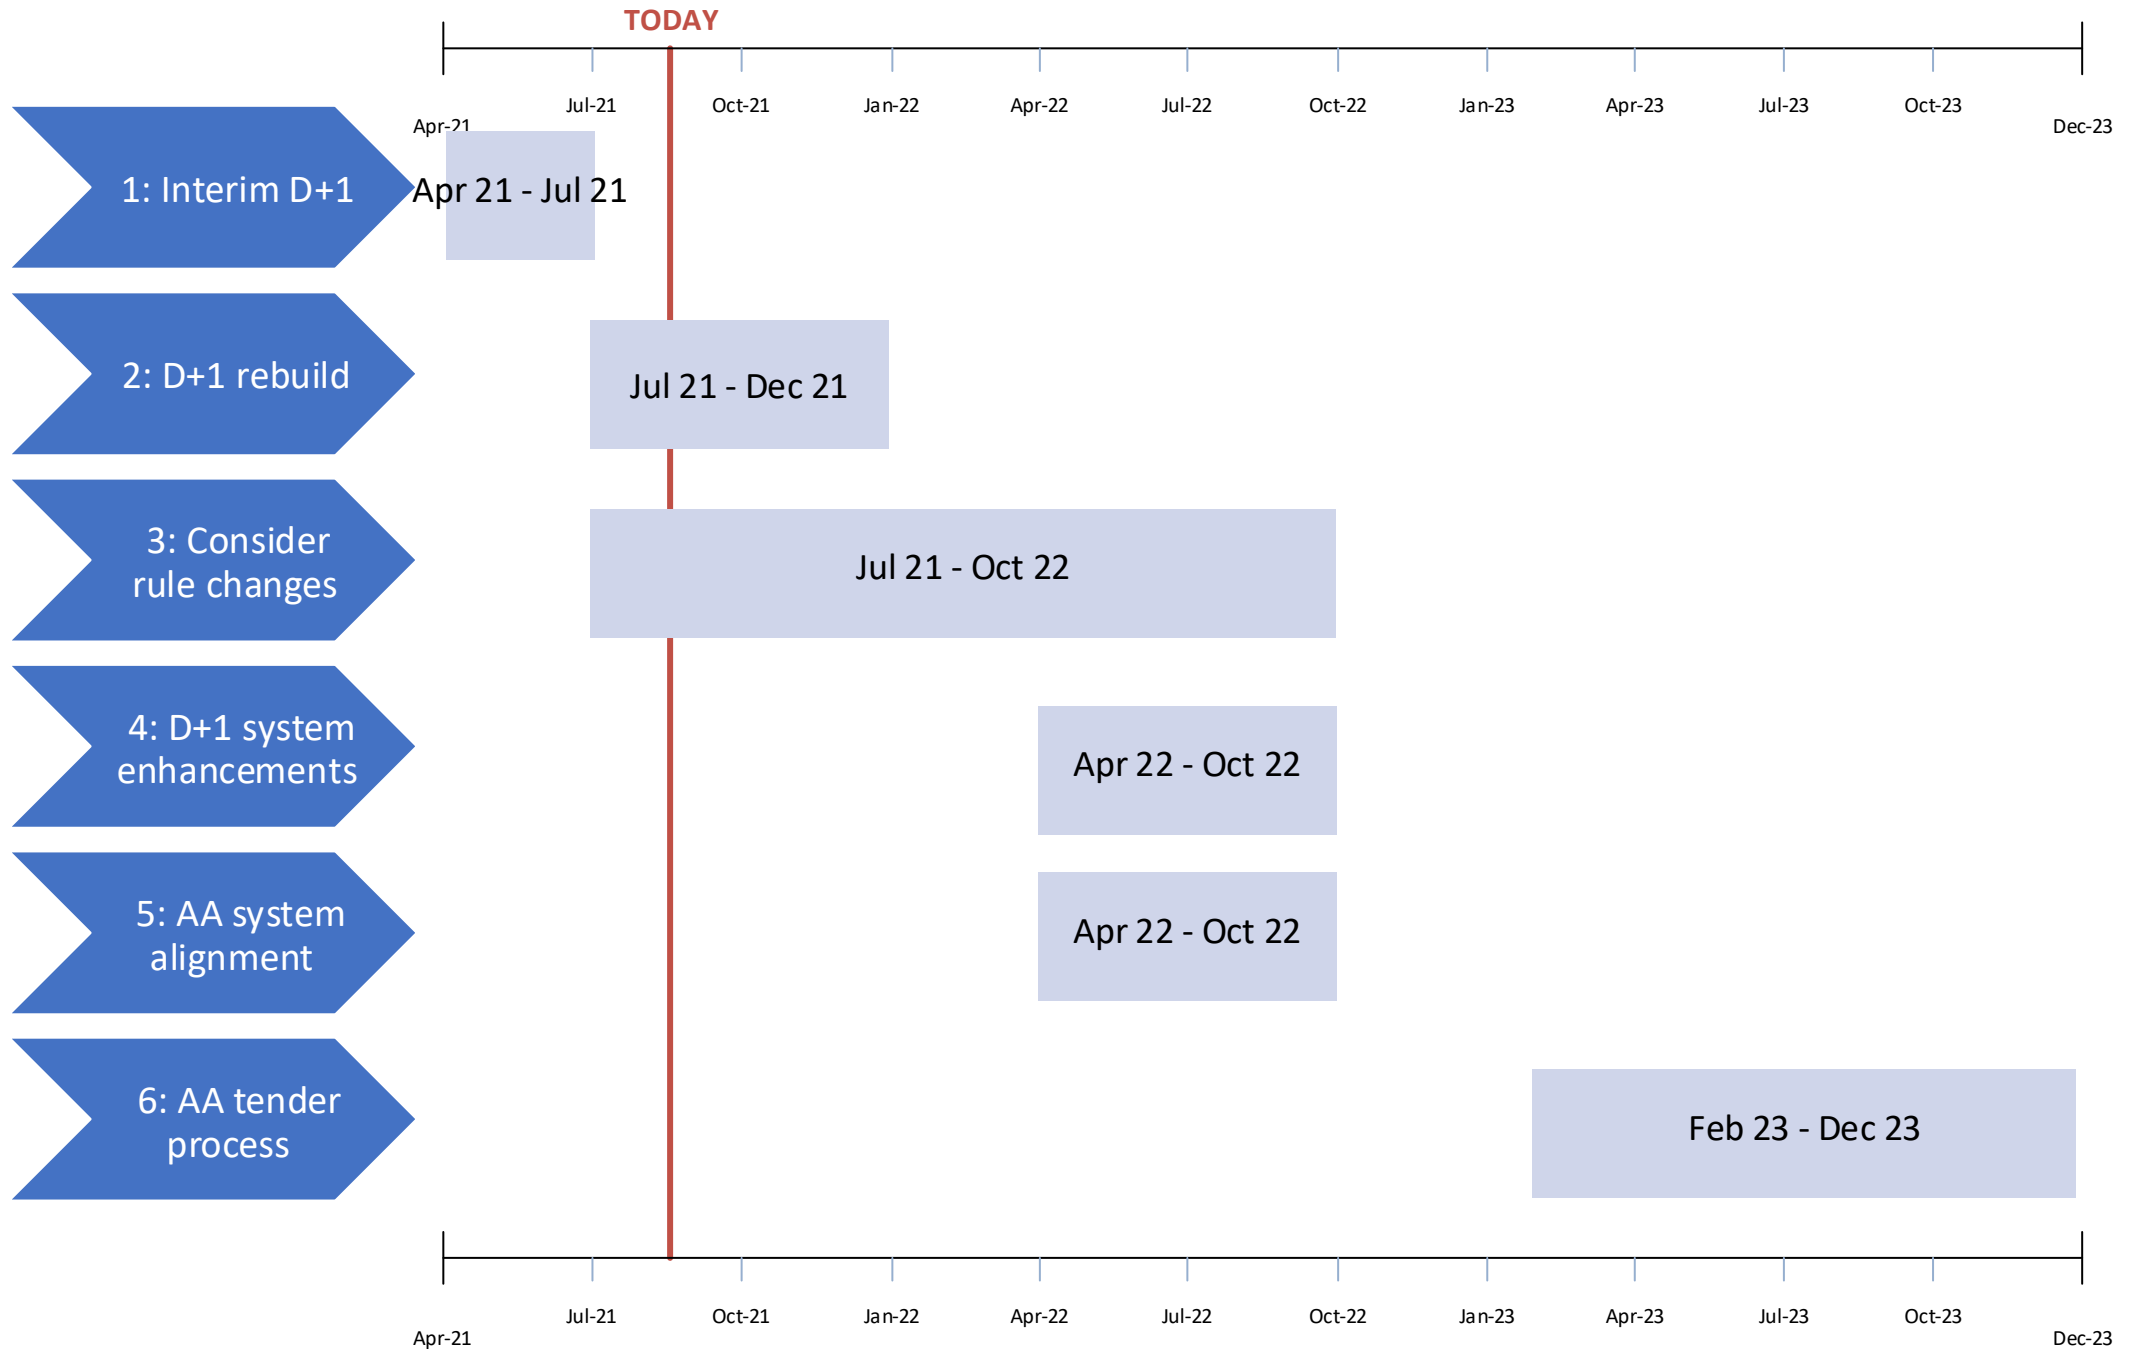

# Key points for ToR (what we want from you)

- Provide advice & expertise to GIC as an input to
  - Drafting rule change proposals; and
  - Preparing a Statement of Proposal for wider industry consultation
- Assist with clarification/review of any issues identified during the build and implementation of the new D+1 system
- Identify and evaluate improvements to D+1 for consideration once the new system is established
- Forum for consideration of related issues, for example, Firstgas D+1

## 2. D+1 project overview

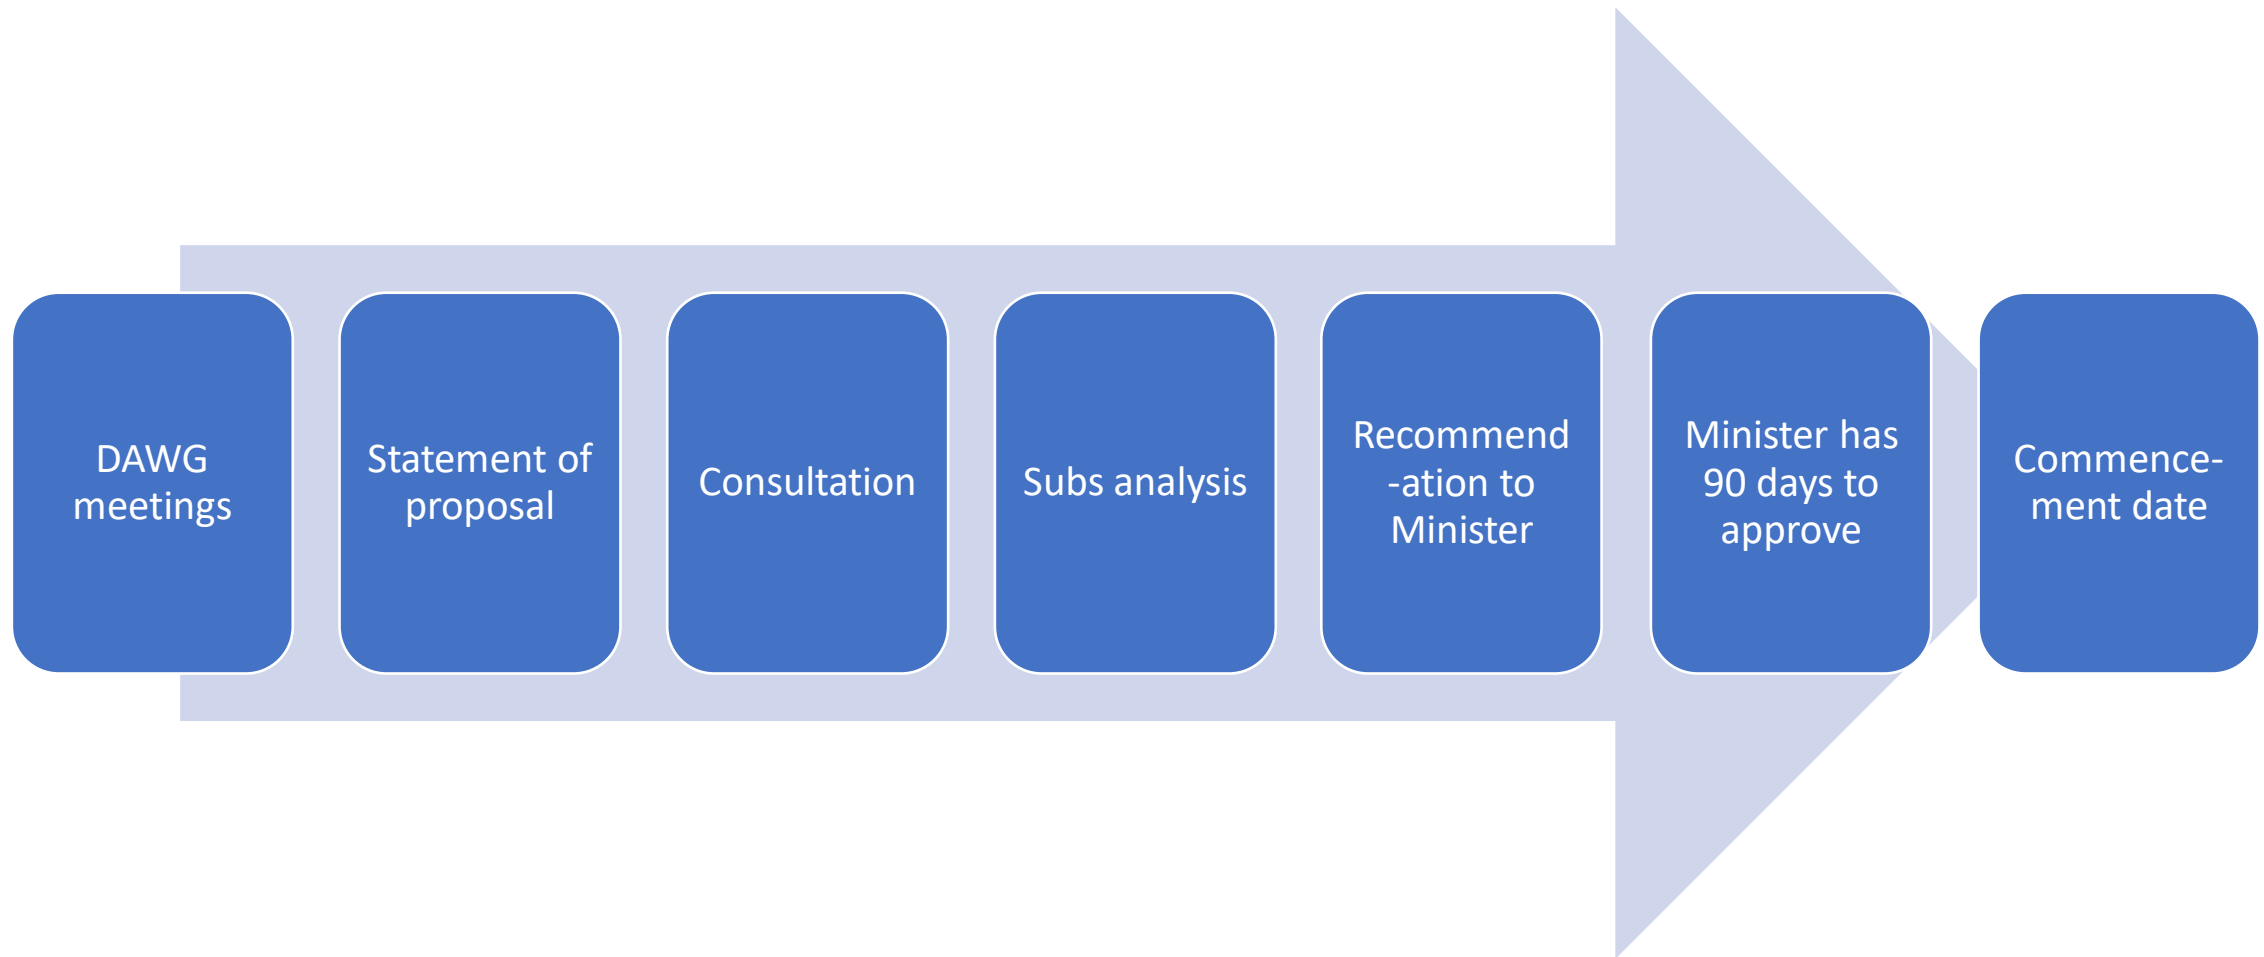

### 3. Rule change project overview

# Summary of rule change process

## 4. Summary of issues

# Objectives

- Agree what's in and out of scope for Statement of Proposal
- Work plan for future DAWG meetings
- What's missing?
- Where are we likely to need more data/analysis?

Do we keep the initial allocation?	Should we change the timing of daily runs?	What's the right level of detail for the D+1 allocation methodology?	Obligations on parties to supply information
Improvements to format and content of reports	Should we change the timing of the initial, interim or final allocations?	Obligation to install telemetry on large sites	How to incorporate AMI data into D+1?
7-day D+1	Rules for customer shutdowns, startups, switches	Temporary changes to demand	Obligations on AA to perform D+1 allocations
Reporting requirements	Compliance & enforcement approach	Obligations around estimating missing data	Validation/exception handling

## 5. Issues arising from rebuild project

# System questions

- Continue to recalculate previous days in daily reports?
