Before the Rulings Panel: The Honourable Sir John Hansen KNZM

Decision: 19 July 2010

---

**DECISION**

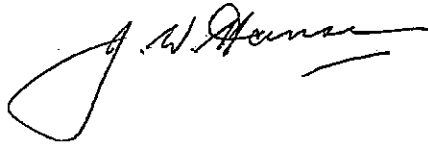

---

[1] The compensation issues in this case are materially identical to claims in 2009/49, 65, 89 and 94. In that case I gave a ruling as to compensation to be paid.

[2] In this case the parties have agreed that the formula I applied in the earlier written decision should apply here as well.

[3] Accordingly, the parties agree that Nova/Auckland Gas's loss amounts to \$6857.24, which has been calculated according to the methodology approved by the Panel in the earlier decision.

[4] Accordingly, the Panel approves settlement in those terms.
