Explanatory note

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations, which come into force on the 28th day after the date of their notification in the *Gazette*, impose levies on gas industry participants for the costs of Gas Industry Company Limited, as the approved industry body under the Gas Act 1992, performing functions and duties and exercising powers, including the cost of collecting the levies.

The 2010/11 levies are—

- a wholesale gas levy of 1.84 cents for every gigajoule of gas purchased directly from gas producers (including from related companies that are gas producers) calculated monthly on the basis of the buyer's purchases in the previous month and payable monthly. The levy is not payable on gas purchased from gas storage facilities operated by gas producers if those producers themselves purchased the gas from other gas producers. This levy rate is increased from 1.67 cents per gigajoule for the 2009/10 financial year:
- a retail gas levy of 53.33 cents per month (which is the annual levy rate of \$6.40 divided by 12) for each installation control point (**ICP**) to which the retailer has a contract to supply gas (as recorded on the registry under the Gas (Switching Arrangements) Rules 2008) as at the last day of the previous month, payable monthly. This levy rate is the same as it was for the 2009/10 financial year.

The levies are exclusive of goods and services tax.

Issued under the authority of the Acts and Regulations Publication Act 1989.
