Alex, David, Tim,

After further consideration this week Vector has decided that the "reasonable endeavours" obligation set out in Change Request 3 is inappropriate. We have come to this view after having spent a considerable amount of time looking at the issue of balancing (in the context of the GIC Issues Paper) and what we believe to be the roles and responsibilities of each category of industry participant. We were not in a position to raise this point with you earlier on and trust that you will understand that with extra time and thought we formed a view different from that which we initially conveyed.

Kind regards, Jo

Jo Murray
