

Registry Amendments Implementation Group: Meeting #2

Date: Wednesday 26 November 2014

Time: 9:00 – 12:00

Venue: Gas Industry Co, Level 8, the Todd Building, 95 Customhouse Quay, Wellington

Minutes

Present

Members

- ❖ Andrew Maseyk
- ❖ Jules Meredith (by phone)
- ❖ Bernie Cross (for Campbell Wilson)
- ❖ Bill Miller
- ❖ Helen Taylor

In attendance from Gas Industry Co

- ❖ Andrew Walker
- ❖ Kate Turner

1 Welcome and introduction

14:00

The meeting opened at 9:00.

Gas Industry Co staff welcomed members of the Registry Amendments Implementation Group.

2 Data discrepancies

14:05

Kate went through the summary of discrepancies. Members had the following comments:

- Multiple retailers submitted:

- Out of the 35,000 ICPs for which two retailers submitted, it was noted that some of these may be cancelled switches, but certainly not anywhere near 35,000.
- It was agreed upon that the registry be the baseline data set for ownership issues, and that meter owner and retailer data be compared against this.
- Meter ID discrepancies:
 - Andrew explained how the Genesis file was generated: Starting with a registry list file, all decommissioned, new and ready ICPs were removed. Then the relevant information was extracted from their billing system. As Gentrack cannot contain duplicate meter IDs it generates internal meter IDs that are mapped back in the system. The file that was submitted referenced the Gentrack generated meter IDs, which may account for many of their discrepancies.
 - It was noted as an example that Hamilton City Council apply a meter number to the meter in addition to what is already there, which may be the source of some discrepancies.

- **Action items**

-

3	Issues arising from SOP submissions	14:25
