

GTAC Workshop minutes 25 September 2018  
At the offices of Gas Industry Company Limited  
Level 8, 95 Customhouse Quay, Wellington

---

Tuesday 25 September 2018 at 10:00 am

Note: these minutes provide a high level record of the position reached and points raised at the workshop to inform First Gas's design of the gas transmission access code (GTAC). The workshop on 25 September was an opportunity for stakeholders ask First Gas questions ahead of submissions being provided on 3 October.

## **1. Outcomes**

### **1.1 Position reached**

- 1.1.1 First Gas to issue a memorandum to stakeholders noting the times of the proposed intra-day nomination cycles to provide a record of the outcome of the discussions at earlier workshops.
- 1.1.2 First Gas to add additional wording to s 3.26 of the GTAC to provide clarity that if a shipper does not cancel priority rights (PRs) those priority rights will continue.
- 1.1.3 In relation s 4.15 of the GTAC, First Gas is to amend that provision to refer to the relevant provision of the ICA to address concerns that the current drafting does not work for curtailment at receipt points.
- 1.1.4 First Gas to add additional wording into s 8.15 of the GTAC to provide comfort that First Gas will make the current estimated and forecast running mismatch of shippers and OBA parties available and the default rule for publication. The estimated position will only be made available to the individual shipper or OBA party and gas control.
- 1.1.5 First Gas to amend s 20.4 so that the "sole use" of the confidential information is in connection with the operation or use of the transmission system.
