

All Gas Gates v2.6 (as at 01/10/2019)

The gas gates contained in the table below are gas gates for the purposes of the Gas (Downstream Reconciliation) Rules 2008 (“the Rules”). Under the Rules, gas gates are defined as allocated gas gates unless they have been determined as direct connect gas gates by Gas Industry Co. As the naming distinction suggests, allocations do not take place at direct connect gas gates.

Gas Industry Co can also determine certain gas gates as unmetered, oversized metered, or G1M gas gates (refer to the Rules for definitions) and can determine a group of gas gates as a notional delivery point as set out below. All gas gate determinations made by Gas Industry Co are published here:

<http://gasindustry.co.nz/work-programmes/downstream-reconciliation/operations/determination/>

The gas gate table below is consistent with the list of gas gates set out on the registry under the Gas (Switching Arrangements) Rules 2008.

A number of points should be noted, including:

- Gas Industry Co has determined the following grouped gas gates/notional delivery points for the purposes of the Rules. For completeness, these grouped gas gates/notional delivery points are noted in the table¹:
 - **Greater Auckland (GTA03610)**: comprising Bruce McClaren (BMC17901), Henderson (HEN74101), Papakura (PAP06610), Waikumete (WKM17701) and Westfield (WST03610);²
 - **Greater Hamilton (GTH11301)**: comprising Hamilton Te Kowhai (HTK08301) and Hamilton Temple View (HTV11301);
 - **Greater Kapiti (GWP20102)**: comprising Paraparaumu (PAU20101) and Waikanae 2 (WAK22802);
 - **Greater Kihikihi (GTK19101)**: comprising Kihikihi (KIH19101) and Te Awamutu North (TAW31004);

¹ Greater Waitoki was a Notional Delivery Point until 1 July 2015, when the ICPs from the embedded network at Waitoki B (WTK33902) were transferred to parent gate Waitoki (WTK33901). With the combination of the two gas gates, the notional gate became redundant.

² Greater Auckland included Papakura B (PAP06604) until 1 July 2015 when this gate became part of Papakura

- **Greater Mt Maunganui (GMM08001)**: comprising Mt Maunganui (MMU08001), Papamoa (PPA33201) and Papamoa 2 (PPA33202);³
 - **Greater Tauranga (GTT07701)**: comprising Pyes Pa (PYE36601) and Tauranga (TRG07701); and
 - **Greater Waitangirua (GTW06910)**: comprising Waitangirua (WTG06910) and Pauatahanui 1 (PAH23201)
- Te Awamutu North (TAW31004) is not listed as a separate gas gate on OATIS. It is not listed in the transmission pricing schedule. No shipper may reserve capacity at it. This gas gate is used to “top up” the Te Awamutu distribution network from time to time. Vector includes the metered injection quantities for TAW31004 in the metered injection quantities for Kihikihi (KIH19101).
 - From 20 April 2016, First Gas Limited took ownership of Vector’s transmission pipelines and non-Auckland distribution pipelines. First Gas Limited also took ownership of Maui Development Limited’s transmission pipelines from 15 June 2016. The codes associated with pipeline owners are:

Participant Name	Participant Role	Participant Code
First Gas Limited	Distributor	NGCD
	Transmission System Owner	VCTX and MAUI
GasNet	Distributor	GNET
Nova	Distributor	NOVA
Powerco	Distributor	POCO
Vector Distribution	Distributor	UNLG

³ Papamoa 2 (PPA33202) joined Greater Mt Maunganui (GMM08001) with effect 1 August 2017

Gas gates (TSO: First Gas Limited-VCTX)

Gas Gate Name	Gas Gate Code	Allocated/ Direct Connect	Network	Unmetered/ Oversized	Notes
