Explanatory note

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations, which come into force on 1 July 2012, impose levies on gas industry participants. The levies fund the costs of the Gas Industry Company Limited in performing functions and duties and exercising powers, including the cost of collecting the levies. The Gas Industry Company Limited is the approved industry body under the Gas Act 1992.

The 2012/13 levies are—

- a wholesale gas levy of 1.74 cents for every gigajoule of gas purchased from gas producers, calculated monthly on the basis of the buyer's purchases in the previous month and payable monthly. The levy is not payable on gas supplied from gas producers who have purchased the gas from other gas producers. This year's levy rate is an increase from the rate of 1.66 cents per gigajoule that applied in the 2011/12 financial year:
- a retail gas levy of 51.92 cents per month (which is the annual levy rate of \$6.23 divided by 12) for each installation control point to which the retailer has a contract to supply gas (as recorded on the registry under the Gas (Switching Arrangements) Rules 2008) as at the last day of the previous month. This year's levy rate is an increase from the rate of 48 cents per month that applied in the 2011/12 financial year.

The levies are exclusive of goods and services tax.
